⊕ 6 ADD-ONS

TIER 1 · STARTER PACKAGE

E-Commerce Health Check.

"Find out exactly where your store is leaking money — delivered in 5–7 days."

INVESTMENT	TIMELINE	BEST FOR
$150–$300	5–7 Days	$5K–$50K/mo

WHAT WE ANALYZE: 4 KEY AREAS

WHAT WE ANALYZE

Four focused analyses that surface where revenue is leaking.

Sales & Revenue Snapshot

We examine your last 90 days of revenue data — identifying growth trends, unexpected unexpected spikes or drops, and your top 10 performing products. You'll know exactly exactly which direction your revenue is moving and why.

Conversion Funnel Audit

We map every step of your customer journey — from landing on your site to completing a purchase — and pinpoint exactly where visitors are dropping off. We compare mobile vs. desktop performance and identify your single biggest conversion leak.

Top Customer Identification

Using a simplified RFM (Recency, Frequency, Monetary) framework, we identify your top 20% most valuable customers, flag those at risk of leaving, and give you a prioritized list of who needs your attention right now.

Profit Reality Check

Revenue is vanity — profit is sanity. We calculate the gross margin on your top 5 products and flag any that look like winners on the surface but are quietly draining your profit.

TIER 1 · STARTER

WHAT YOU RECEIVE

Five tangible deliverables — built for action.

Executive Summary PDF (2–3 pages)
Plain-language findings - written for business owners, not data scientists.

GROWTH UNLOCKED THROUGH CUSTOMER & CHANNEL OPTIMIZATION

WHAT WE ANALYZE · PART 1 OF 2

Customer intelligence, channel truth, lifetime value.

⑤

Full RFM Customer Segmentation

We segment your entire customer base into 8 actionable groups - Champions, Loyal Customers, Customers, Potential Loyalists, At-Risk, Hibernating, Hibernating, Lost, New, and Promising. Each segment segment receives a specific marketing strategy tailored tailored to their behavior.

EXAMPLE INSIGHT

"These 127 customers are responsible for 43% of your your revenue - here's exactly how to keep them."

⑥

Customer Lifetime Value (LTV) Analysis

We calculate the true long-term value of your customers - broken down by acquisition cohort and and marketing channel. You'll know which channels channels bring customers who spend more over time, time, and what the maximum sustainable cost to acquire a new customer should be.

EXAMPLE INSIGHT

"Your Google customers have an LTV of $156 vs. $89 from Facebook - here's how to reallocate your budget."

⑦

Marketing Channel Performance Audit

We bring all your marketing channels into one view - view - Facebook, Google, Email, Organic, Direct - and and calculate the true cost and true return of each. No each. No more ROAS numbers that look good but hide but hide the real profit picture.

EXAMPLE INSIGHT

True cost vs. true return - across every channel, in one frame.

WHAT WE ANALYZE · PART 2 OF 2

Cross-sell opportunities and churn defense.

8

Cross-Sell & Upsell Opportunity Analysis

Using market basket analysis, we identify which products your customers buy together buy together most frequently, which products are most often purchased after a specific after a specific item, and where your best bundling opportunities lie.

"Bundling Product A with Product B increases average order value by $X — here's the post-purchase email sequence to activate it."

9

Churn Risk Identification

We identify customers who are statistically likely to stop buying from you in the next 30 the next 30 days — so you can reach them before they leave.

"These 89 customers are at high risk of churning this month — contact them now them now with this specific offer."

TIER 2 · GROWTH

WHAT YOU RECEIVE

Seven deliverables — comprehensive, team-ready, built for execution.

Comprehensive Report (8–12 pages)
Full findings with visuals — executive summary + team-ready appendix. 01 / 07

Interactive Dashboard (Looker Studio / Power BI)
Filterable by date, channel, and product category. 02 / 07

Customer Segment CSV Export
Ready to upload directly into Klaviyo or Mailchimp. 03 / 07

LIVE CUSTOM KPI DASHBOARD PREVIEW

TIER 3 · ADVANCED

WHAT WE ANALYZE · PART 1 OF 2

Cohorts, forecasts, and the truth about your profit.

⑩

Complete Cohort Analysis

We track every monthly group of customers you've acquired acquired over the past 12–24 months and measure how each each cohort behaves over time — retention, revenue contribution, purchase frequency, and LTV progression. This This reveals your best-performing customer acquisition periods periods and why.

"Your November 2023 cohort is your most valuable — here's what you did differently that month, and how to replicate it."

⑪

90-Day Sales & Demand Forecasting

We build a data-driven revenue forecast for the next 90 next 90 days, including SKU-level demand projections projections for your top 20 products, seasonal adjustments, and three scenarios: best case, expected, expected, and conservative.

"You need to order X units of Product B within the next the next 10 days — stockout risk is high going into next into next month."

⑫

Profit Margin Deep Dive

We calculate the true profit on every product — after after deducting cost of goods, returns, shipping, and ad and ad spend. We then map profitability by customer customer segment and by marketing channel to reveal reveal where your real money is being made.

"Your best-selling product is actually your third most most profitable — this product deserves your growth growth investment."

TIER 3 · ADVANCED

WHAT WE ANALYZE · PART 2 OF 2

A live analytics engine, plus promotion & return intelligence.

⑬

Live Custom KPI Dashboard

We design and build a fully customized live dashboard dashboard connected directly to your Shopify and GA4 and GA4 data. It auto-refreshes daily and includes six includes six tailored views: Revenue Pulse, Customer Customer Health Monitor, Marketing Efficiency, Product Product Performance Matrix, Inventory Alerts, and and Profit Tracker.

You will never again say "I don't know what's happening in my business."

⑭

Discount & Promotion Strategy Analysis

We analyze the true impact of every promotion you've you've run — measuring revenue lift against margin margin erosion and new customer acquisition. We We calculate your optimal discount thresholds and and build a Q4 promotional calendar with profit projections.

"Your 20% discount events are actually reducing net reducing net profit — a targeted 10% offer to specific specific segments would generate higher returns." returns."

⑮

Return & Refund Pattern Analysis

We analyze return rates by product, category, and and supplier — and calculate the true financial cost of cost of returns including shipping, restocking, and lost and lost margin. We then identify the specific fixes fixes (product descriptions, sizing guides, quality improvements) that will reduce your return rate.

"A 2% reduction in your return rate saves $X annually — annually — here are the three product pages to fix fix first."

TIER 3 · ADVANCED

> *A complete analytics engine — built once, runs forever.*

04 / 05

Monthly Retainer.

Your dedicated data analyst — every month, every decision, every insight.

↻ MONTHLY RETAINER

INVESTMENT $500–$1,200/MO

MIN. COMMITMENT 2 MONTHS

4 AD-HOC REQUESTS/MO

↻ MONTHLY RETAINER

WHY A ONE-TIME ANALYSIS IS NOT ENOUGH

Your business operates in real time. A single snapshot goes stale.

A single analysis captures a moment in time. But your business operates in real time — markets shift, campaigns launch, seasons change, and customer behavior evolves continuously.

The retainer solves all of this — by giving you a **dedicated analyst** who monitors, interprets, and recommends every single month.

◆ Continuous insight replaces stale snapshots — your decisions stay current.

WHAT GOES WRONG WITHOUT IT

- ⚠ Today's insight becomes outdated next month.
- ⚠ Problems develop between analyses — undetected.
- ⚠ You implement changes but have no one to tell you if they're they're working.
- ⚠ Seasonal shifts catch you unprepared.

↻ MONTHLY RETAINER

WHAT WE DELIVER EVERY MONTH

A four-week rhythm that keeps your business moving forward.

01 — 02 — 03 — 04

WEEK 1

Monthly Performance Report

Complete review of the previous month: revenue, conversion, and customer metrics. Dashboard updated updated with commentary. Top 3 wins wins and top 3 problems — clearly identified.

WHY WORK WITH US

Four principles that shape every engagement.

We speak business, not jargon.

Every report is written so that a business owner — not a data scientist — can read it, understand it, and act on it immediately.

We deliver decisions, not data dumps.

You won't receive a spreadsheet full of numbers with no context. Every finding comes with a specific, prioritized recommendation.

We focus on your actual problem.

We design every engagement around the specific challenge you're facing — not a generic not a generic template applied to every client.

We build for action, not admiration.

Our dashboards, reports, and roadmaps are built to be used — by your team, every day, every day, to make better decisions faster.

Ready to find out exactly where your next $10,000 in profit is hiding? Let's talk.

LET'S TALK
